

Bremen-Farge ("Valentin" Bunker)

Between October 1943 and 10 April 1945, up to 3,000 prisoners and 7,000 non-German slave labourers, POWs and inmates of a "work education camp" had to construct a huge U-boat bunker at Bremen-Farge satellite camp. The prisoners were housed in a fuel storage bunker.

Construction Works in Bremen-Farge

This photograph of prisoners is part of a photo documentary on the construction of the "Valentin" U-boat bunker made by local photographer Seubert in 1944.
