6 Frauen
5 Exekutionen

Extracts from the handwritten death records for the main camp for the time between 24 December 1943 and 2 August 1944. The pencil entries reading "Exekution" refer to the executions of persons who were not registered prisoners of Neuengamme concentration camp and therefore not recorded by name.

SS Shooting Range

The SS executed prisoners at their shooting range near the sewage plant. These prisoners were killed by fusillades from a firing squad. Gestapo and concentration camp prisoners were generally hanged at the "bunker". The SS considered being shot by a firing squad a "more honourable" form of execution. Photograph from the so-called Masset album.

Detention Bunker

The "detention bunker" (the camp's prison) was also used as a site for executions by the SS and the Hamburg Gestapo, who carried out hangings in the hallway of the building. On 25 September 1942, 197 Soviet POWs were murdered with the poison gas Zyklon B in the "bunker". In late November 1942, another 251 Soviet POWs were killed there in the same way.
